## DETAILED ACTION

### *Election/Restrictions*

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-9, 19-20, drawn to an isolated nucleic acid comprising SEQ ID NO: 1 or a diagnostic fragment.

Group II, claim(s) 10-18, drawn to a method of detecting the presence of E. coli serotypes.

2. The inventions listed as Groups I-II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons.

According to PCT Rule 13.2, unity of invention exists only when there is a shared same or corresponding special technical feature is a contribution over the prior art. The inventions listed in Group I do not relate to a single general inventive concept because the lack of the same or corresponding special technical feature. The technical feature of Group I is "the nucleic acid molecule comprising SEQ ID NO: 1 or a fragment thereof" which is shown by Brennan (US Pat. 5,474,796). Brennan teaches an array comprising all possible combinations of 10-mers. Therefore, Brennan teaches every fragment of SEQ ID NO: 1 which is 10 nucleotides in length. Therefore, Brennan teaches a

Art Unit: 1634

fragment of SEQ ID NO: 1 to lack novelty or inventive step and does not make it a contribution over the prior art.

3. A telephone call was made to Micheline Gravelle on July 31, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to examiner Jeanine Goldberg whose telephone number is (703) 306-5817. The examiner can normally be reached Monday-Friday from 8:00 a.m. to 5:30 p.m.
